Is a house a home?

Girls work in groups to build their home; this can be an edible structure or built from boxes or you can choose another building item. Or you can ask the girls to draw their homes on large pieces of paper.

Resources needed - Biscuits, icing pens, sweets and decorations, pens, paper and markers.

When the girls have built / drawn their houses ask them to list the top nine things they could not live without. Share the answers with everyone in the group and discuss.

What are a child's basic needs? At the end of the pack you will find Maslow hierarchy of needs.

Questions to ask during activity

What makes a happy home?

What can make someone's home an unhappy place?

What do you think people do if their home isn't a happy place?

How can you contribute to making a happy home?

Why do young people run away?

There are lots of reasons why young people leave home; it's a sign that something is not OK at home. Remember every situation is different.

Now, ask the girls to work in groups to select nine reasons, from the cards that they think could cause girls to run away from home.

Cards at the back of the additional resources pack

Next girls should arrange the nine choices in a diamond shape to show which they think are the most powerful reasons that young people run away. Discuss the differences between each groups selection.

ACTION TO TAKE

As Girlguiding Leicestershire we want to help girls and young women who are homeless or at risk of being homeless, we want to make sure they have access to personal items such as soap, toothpaste, toothbrush and for the older girls sanitary products, which is why we have teamed up with 'Code Red' a local campaign collecting sanitary products.

Ask the girls to tell all their friends and families about our campaign, if you have time you might want to make posters to tell people about homelessness and the collection.

Please bring items to our County Office between Sept 2018 and Dec 2018.
